### Part II: Understanding Estate Planning Documents in Your State

#### State Laws About Wills

A will is a legal document that provides instructions for what you would like to have happen to your property upon death. A will is also a place where parents can name a guardian for any minor children or adult children with developmental disabilities.

Utah probate courts accept written and holographic wills. To make a valid written will in Utah:

1. You need to be in the right state of mind to create a will. This means you need to be:
  - At least 18 years old
  - Of “sound mind” (meaning you know what you’re doing)
2. You need to sign the will, in front of two witnesses who have watched you sign or authorize someone else to sign the will, and understand what they are signing.
3. You might also want to make your will “self-proving,” or accepted in probate court without the court needing to contact your witnesses. To do this, ask your witnesses to sign a statement that it was your intention to make the will and you did so without undue or coercive influence.

Due to the COVID-19 pandemic, Utah now allows you to execute your will remotely (e.g. witness the signing of a will by teleconferencing). However, before you execute your will remotely, you should check your state’s laws to make sure that this is still allowed at the time you are executing your will.

A holographic will is one that is handwritten by you. To make a valid holographic will in Utah:

1. You need to be in the right state of mind to create a will. This means you need to be:
  - At least 18 years old
  - Of “sound mind” (meaning you know what you’re doing)
2. Your will must be written in your handwriting and you must sign it

If you make a holographic will, it does not need to be signed by witnesses. However, most estate planning experts do not recommend relying on holographic wills because it is more difficult to prove that they are valid in probate court.

#### State Laws About Financial Powers of Attorney

A power of attorney for financial affairs is a legal document where you (the principal) name a trusted adult (the agent) who is authorized to make financial decisions on your behalf.

Utah’s power of attorney statutory form allows you to choose someone to manage your finances, including assets like your property, taxes, and government benefits. You can also choose an alternate agent, who can act if the first person cannot act. This person can make all financial decisions for you, or you can limit their powers to specific areas, like filing taxes or banking. Unless you indicate otherwise in the “special instructions” section, your agent is entitled

to reasonable compensation for their help. This document goes into effect when you sign it until you die or revoke this document, unless you indicate otherwise in the “special instructions” section

Part III of this toolkit includes a sample form.

### **State Laws About Advance Health Care Directives**

An advance health care directive is a legal document you can use to provide written instructions, or state preferences, about your medical care in case you become unable to communicate.

In Utah, this form is called a **Utah Advance Health Care Directive**. You can sign Part I, Part II, or both. But, you must sign Part IV to make the document valid.

- **Part I:** You can choose someone (an agent) to make decisions about your medical care for you, including life-prolonging care, any time your doctor determines you can no longer make these decisions. You can also choose an alternate person if the first person you appoint is not available. You can limit your agent’s authority, consent to participate in medical research, and indicate your preferences for organ donation. This document takes effect when your doctor determines you can no longer understand or communicate your preferences for health care.
- **Part II:** Sometimes called a “living will,” this document lets you indicate your preferences for health care if you become unable to speak for yourself and are suffering from a terminal illness or condition. You can clarify your preferences for treatments including surgery or other invasive procedures, cardiopulmonary resuscitation (CPR) to restart your heart or breathing, antibiotics, dialysis, chemotherapy, and artificially supplied nutrition and hydration. If you like, you can indicate that you want your agent to make these decisions. You can also indicate whether or not you would like to make an organ donation.
- **Part III:** This section provides instructions for revoking your advance health care directive. You can do this by writing “void” across the form, or destroying it in some other way; signing a written revocation; stating your desire to revoke your advance health care directive in front of an adult witness; or signing a new directive.
- **Signing and Witnessing Provisions:** You must sign your advance health care directive in front of an adult witness. Your witness cannot be:
  - The person who signed the directive for you, if you could not sign it yourself
  - Your agent or alternate agent
  - Related to you by blood or marriage
  - Your doctor or an employee of your doctor
  - Directly financially responsible for your health care
  - Included in your will or entitled to your estate by any other law
  - A beneficiary of your life insurance policy, trust, or other pay on death account
  - Your health care provider or an administrator at your health care facility

If you are pregnant and the decisions you make in this document would interfere with facilitating life-sustaining treatment to the fetus, then it will not be followed.

Part III of this toolkit includes a sample advance health care directive.

### **State Laws About POLST/MOLST**

A physician order for life-sustaining treatment (POLST) is a medical order completed by a seriously ill person and signed by a physician. The POLST does not replace an advance directive. You can complete a POLST form with your doctor.

This form lets you indicate your preferences for:

- Cardiopulmonary resuscitation orders (also known as a “Do not resuscitate,” or DNR order)

- Medical Interventions, ranging from all medical and surgical treatments available to prolong your life, selective treatments to restore your health while avoiding burdensome procedures, or comfort-focused treatments to manage symptoms and allow natural death
- Medically assisted nutrition and hydration, or food and water offered through surgically-placed tubes
- Advance health care directives, if you have one in place, and your preferences

This form will not expire, so it is important for you and your physician to review it regularly to make sure it still reflects your wishes.

Part III of this toolkit includes a sample form.

### **State Laws About Funeral Designation Forms**

Funeral designation forms allow you to tell your loved ones what you would like to happen to your remains after you pass away. These forms can be used to choose someone to control what happens to your remains after your death, specify what you would like to have happen, and other wishes depending on your state.

Utah’s **Funeral Planning Form** and **Appointment of Agent to Control Disposition of Remains** form allow you to express detailed preferences for these processes. The funeral planning form allows you to explain your wishes for the disposition of your remains and funeral arrangements, including music, your final resting place, and favorite flowers for memorials. The appointment of agent form lets you choose someone to oversee the disposition of your remains.

Part III of this toolkit includes sample forms.

### **State Laws About Death with Dignity**

“Death with Dignity” laws, or physician-assisted dying/aid-in-dying laws, allow certain terminally ill people to voluntarily and legally request and receive a prescription medication from their physician to hasten their death in a peaceful, humane, and dignified way. By adding a voluntary option to the continuum of end-of-life care, these laws can give you dignity, control, and peace of mind during your final days with family and loved ones.

Utah does not have a death with dignity law. But, you can indicate other decisions related to end-of-life care through an advance health care directive.

### **Federal Law About HIPAA**

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a federal law that protects the privacy of your health information. HIPAA does allow your protected health information to be shared with your personal representative who has authority to make health care decisions for you (i.e., your health care agent or proxy).

To guarantee your agent’s access to information, a HIPAA authorization form should be signed and dated by you. Also, it must identify the information to be disclosed, the purpose of the disclosure, the recipients of the information, and an expiration date. This means that any advance health care directives should be clear about the scope of your agent’s authority to receive protected health care information.

You can revoke a HIPAA authorization form at any time by notifying your health care provider in writing.

Part III of this toolkit includes a sample HIPAA authorization form. For more information:

### DIRECTIONS FOR HEALTHCARE PROVIDERS

#### COMPLETING POLST

- This form is intended for both adult and pediatric patients.
- The POLST is not an Advance Directive and does not replace it. The POLST is a Medical Order.
- When available, review the Advance Directive and POLST form to ensure consistency.
- The POLST must be completed by a medical provider (MD/DO/PA/APRN) based on patient preferences and medical indications.
- The entire form should be completed. A patient may indicate that they "do not wish to express a preference" rather than leaving a section of the form blank.
- Section D, which indicates the degree of leeway the patient would like to grant their surrogate, must be completed by the individual patient and only if the patient has medical decision-making capacity.
- The POLST must be signed by the patient or surrogate decision maker AND by a medical provider (MD/DO/PA/APRN) to be valid. In the case of pediatric patients, signatures from two different medical providers are required.
- Use of the original form is strongly encouraged. Photocopies and FAXs of signed POLST forms are legal and valid.

#### USING POLST

##### Section A:

- If a patient has selected "Do Not Attempt Resuscitation" and is **found pulse less and not breathing**, no defibrillator (including automated external defibrillators) or chest compressions should be used.

##### Section B:

- A person may chose "DNR" in Section A and "Full Treatment" in Section B, recognizing in Section A the setting refers to where there are no signs of life (palpable pulse) and Section B refers to the setting where there are signs of life.
- Choosing "Attempt to resuscitate" in Section A requires "Full treatment" in Section B as an attempt at resuscitation may include endotracheal intubation, mechanical ventilation, defibrillation/ cardioversion, and/or vasopressors.
- When comfort cannot be achieved in the current setting, the patient, including someone with "Comfort Measures," may be transferred to the hospital to provide comfort (e.g., treatment of hip fracture).
- If a patient has indicated that he/she would not want to return to the hospital, this should be written in the "other instructions and clarifications" section of the form.
- IV antibiotics and fluids are generally not considered "Comfort Measures" and may prolong life. A person who desires IV fluids or IV antibiotics should indicate "Limited Additional Interventions" or "Full Treatment."
- Some IV medications (e.g. medication for pain, nausea, delirium, etc.) may be appropriate for a patient who has chosen "Comfort Measures."

#### REVIEWING POLST

This form should be reviewed periodically (consider at least annually). Review is also recommended when:

- The patient is transferred from one care setting or care level to another.
- There is a substantial change in the patient's health status.
- The patient's treatment preferences change.

#### MODIFYING AND VOIDING POLST

- The POLST form can be modified at any time if a patient changes his/her mind about his/her treatment preferences by completing a new POLST form.
- If a patient has given sufficient leeway to his/her surrogate to modify the POLST form, any modifications made should be consistent with patient preferences and in collaboration with the medical provider.
- It is recommended that revocation of the form be documented by drawing a line through sections A through D, writing "VOID" in large letters, and signing/dating the form.
- The most recently dated POLST is considered the valid POLST. The most recently dated POLST orders supersede all prior POLST directives.

*Place this form in a prominently visible part of the patient's record or home. A copy of this form must accompany the patient when transferred or discharged (including transfers to hospital emergency departments).*
