

## Triage Cancer Estate Planning Toolkit: New York

### Part II: Understanding Estate Planning Documents in Your State

#### State Laws About Wills

A will is a legal document that provides instructions for what you would like to have happen to your property upon death. A will is also a place where parents can name a guardian for any minor children or adult children with developmental disabilities.

New York probate courts accept written wills, and holographic and oral wills in certain circumstances. To make a valid written will in New York:

1. You need to be in the right state of mind to create a will. This means you need to be:
  - At least 18 years old
  - Of “sound mind” (meaning you know what you’re doing)
  - Free from coercion or outside pressure
2. You need to sign the will, in front of two witnesses who are not included in your will.
3. You might also want to make your will “self-proving,” or accepted in probate court without the court needing to contact your witnesses. To do this, ask your witnesses to sign a statement that it was your intention to make the will and you did so without undue or coercive influence.

Due to the COVID-19 pandemic, New York now allows you to execute your will remotely (e.g. sign an affidavit by teleconferencing with a notary). However, before you execute your will remotely, you should check your state’s laws to make sure that this is still allowed at the time you are executing your will. This may change after 1/31/23.

An oral will is a spoken will declared in front of two witnesses. Holographic wills are handwritten, and must be entirely in your handwriting, though they do not need to be witnessed.

To make a valid holographic (written) or nuncupative (oral) will in New York, you must be a member of the active forces during a war or other armed conflict, or a mariner while at sea. These types of wills become invalid a year after your active military service ends, or three years after you made the will if you are a mariner at sea.

Estate planning experts do not recommend relying on holographic or oral wills because it is more difficult to prove that they are valid in probate court.

#### State Laws About Financial Powers of Attorney

A power of attorney for financial affairs is a legal document where you (the principal) name a trusted adult (the agent) who is authorized to make financial decisions on your behalf.

In New York, the power of attorney statutory short form allows you to appoint someone to manage your finances, including assets like your property, taxes, and government benefits. You can also appoint a successor agent, and a second successor agent, in case the first person you choose cannot be your agent. This person can make all financial decisions for you, or you can limit their powers to specific areas, like filing taxes or banking. With this form, you can

indicate if you would like this document takes effect immediately after you sign it, or if you become incapacitated. After that point, this document will remain in effect until you die, unless you revoke your power of attorney.

Part III of this toolkit includes a sample form.

### **State Laws About Advance Health Care Directives**

An advance health care directive is a legal document you can use to provide written instructions, or state preferences, about your medical care in case you become unable to communicate. In New York, this document contains three parts.

1. **Health Care Proxy:** You can choose someone (your “agent”) to make health care decisions for you, including decisions about life-sustaining care, any time your doctor determines that you cannot make them yourself. You can appoint an alternate person to make these decisions if the first person you chose isn’t available. This section also allows you to express your preferences for advance planning decisions to help guide your agent.
2. **Living Will:** This section lets you express your preferences for life-sustaining procedures (including medically assisted nutrition and pain management) if you develop a terminal condition and can no longer make your own health care decisions. You can also indicate if you would like to make an organ donation with this document.
3. **Signature and Witnessing Provisions:** You must sign your advance health care directive in front of two witnesses. Your witnesses must be at least 18 years old, and cannot be your health care representative or alternate representative. If you only complete Part II you do not need witnesses, but it is recommended.

Your advance health care directive takes effect when your doctor or nurse practitioner determines you can no longer make or communicate your health care decisions.

You can revoke your AHCD by telling your health care provider your decision, either in writing or orally. You can also revoke your advance health care directive by doing anything else to demonstrate you want to revoke this document (e.g., destroying or tearing up the document), or by creating a new advance health care directive

If you appoint your spouse as your representative, this will be automatically revoked if your marriage dissolves, unless you specify differently in the “additional instructions” section.

Part III of this toolkit includes a sample advance health care directive.

### **State Laws About POLST/MOLST**

A physician order for life-sustaining treatment (POLST) is a medical order completed by a seriously ill person and signed by a physician. In New York, this form is called a medical order for life-sustaining treatment (MOLST). The MOLST does not replace an advance directive. You can complete a MOLST form with your doctor. This form lets you indicate your preferences for:

- Cardiopulmonary resuscitation orders (also known as a “Do not resuscitate,” or DNR order)
- Medical Interventions, ranging from all medical and surgical treatments available to prolong your life, selective treatments to restore your health while avoiding burdensome procedures, or comfort-focused treatments to manage symptoms and allow natural death
- Intubation and medical ventilation
- Hospital transfers
- Medically assisted nutrition and hydration, or food and water offered through surgically-placed tubes
- Antibiotics
- Additional orders or instructions for your care

This form will not expire, so it is important for you and your physician to review it regularly to make sure it still reflects your wishes. Part III of this toolkit includes a sample form.

## **State Laws About Funeral Designation Forms**

Funeral designation forms allow you to tell your loved ones what you would like to happen to your remains after you pass away. These forms can be used to choose someone to control what happens to your remains after your death, specify what you would like to have happen, and other wishes depending on your state.

New York law allows you to designate someone (your “agent”) to oversee the disposal of your remains. You do this with an **Appointment of Agent to Control Disposition of Remains** form. You can include special directions to guide this person as they make these decisions. In case your agent is unable to act, you can appoint two successor agents as well.

Part III of this toolkit includes a sample form.

## **State Laws About Death with Dignity**

“Death with Dignity” laws, or physician-assisted dying/aid-in-dying laws, allow certain terminally ill people to voluntarily and legally request and receive a prescription medication from their physician to hasten their death in a peaceful, humane, and dignified way. By adding a voluntary option to the continuum of end-of-life care, these laws can give you dignity, control, and peace of mind during your final days with family and loved ones.

New York does not have a death with dignity law.

## **Federal Law About HIPAA**

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a federal law that protects the privacy of your health information. HIPAA does allow your protected health information to be shared with your personal representative who has authority to make health care decisions for you (i.e., your health care agent or proxy).

To guarantee your agent’s access to information, a HIPAA authorization form should be signed and dated by you. Also, it must identify the information to be disclosed, the purpose of the disclosure, the recipients of the information, and an expiration date. This means that any advance health care directives should be clear about the scope of your agent’s authority to receive protected health care information.

You can revoke a HIPAA authorization form at any time by notifying your health care provider in writing.

Part III of this toolkit includes a sample HIPAA authorization form. For more information:

#### **Power of Attorney for Financial Affairs**

**POWER OF ATTORNEY  
NEW YORK STATUTORY SHORT FORM**

**(a) CAUTION TO THE PRINCIPAL: Your Power of Attorney is an important document. As the “principal,” you give the person whom you choose (your “agent”) authority to spend your money and sell or dispose of your property during your lifetime without telling you. You do not lose your authority to act even though you have given your agent similar authority.**

**When your agent exercises this authority, he or she must act according to any instructions you have provided or, where there are no specific instructions, in your best interest. “Important Information for the Agent” at the end of this document describes your agent’s responsibilities.**

**Your agent can act on your behalf only after signing the Power of Attorney before a notary public.**

**You can request information from your agent at any time. If you are revoking a prior Power of Attorney, you should provide written notice of the revocation to your prior agent(s) and to any third parties who may have acted upon it, including the financial institutions where your accounts are located.**

**You can revoke or terminate your Power of Attorney at any time for any reason as long as you are of sound mind. If you are no longer of sound mind, a court can remove an agent for acting improperly.**

**Your agent cannot make health care decisions for you. You may execute a “Health Care Proxy” to do this.**

**The law governing Powers of Attorney is contained in the New York General Obligations Law, Article 5, Title 15. This law is available at a law library, or online through the New York State Senate or Assembly websites, [www.nysenate.gov](http://www.nysenate.gov) or [www.nyassembly.gov](http://www.nyassembly.gov).**

**If there is anything about this document that you do not understand, you should ask a lawyer of your own choosing to explain it to you.**

- (2) avoid conflicts that would impair your ability to act in the principal's best interest;

You may not use the principal's assets to benefit yourself or anyone else or make gifts to yourself or anyone else unless the principal has specifically granted you that authority in the modifications section of this document or a Non-Statutory Power of Attorney. If you have that authority, you must act according to any instructions of the principal or, where there are no such instructions, in the principal's best interest.

You may resign by giving written notice to the principal and to any co-agent, successor agent, monitor if one has been named in this document, or the principal's guardian if one has been appointed. If there is anything about this document or your responsibilities that you do not understand, you should seek legal advice.

Liability of agent: The meaning of the authority given to you is defined in New York's General Obligations Law, Article 5, Title 15. If it is found that you have violated the law or acted outside the authority granted to you in the Power of Attorney, you may be liable under the law for your violation.

# HEALTH CARE PROXY

## Appointing Your Health Care Agent in New York State

The New York Health Care Proxy Law allows you to appoint someone you trust — for example, a family member or close friend — to make health care decisions for you if you lose the ability to make decisions yourself. By appointing a health care agent, you can make sure that health care providers follow your wishes. Your agent can also decide how your wishes apply as your medical condition changes. Hospitals, doctors and other health care providers must follow your agent's decisions as if they were your own. You may give the person you select as your health care agent as little or as much authority as you want. You may allow your agent to make all health care decisions or only certain ones. You may also give your agent instructions that he or she has to follow. This form can also be used to document your wishes or instructions with regard to organ, eye and/or tissue donation.

# About the Health Care Proxy Form

**This is an important legal document. Before signing, you should understand the following facts:**

1. This form gives the person you choose as your agent the authority to make all health care decisions for you, including the decision to remove or provide life-sustaining treatment, unless you say otherwise in this form. "Health care" means any treatment, service or procedure to diagnose or treat your physical or mental condition.
2. Unless your agent reasonably knows your wishes about artificial nutrition and hydration (nourishment and water provided by a feeding tube or intravenous line), he or she will not be allowed to refuse or consent to those measures for you.
3. Your agent will start making decisions for you when your doctor determines that you are not able to make health care decisions for yourself.
4. You may write on this form examples of the types of treatments that you would not desire and/or those treatments that you want to make sure you receive. The instructions may be used to limit the decision-making power of the agent. Your agent must follow your instructions when making decisions for you.
5. You do not need a lawyer to fill out this form.
6. You may choose any adult (18 years of age or older), including a family member or close friend, to be your agent. If you select a doctor as your agent, he or she will have to choose between acting as your agent or as your attending doctor because a doctor cannot do both at the same time. Also, if you are a patient or resident of a hospital, nursing home or mental hygiene facility, there are special restrictions about naming someone who works for that facility as your agent. Ask staff at the facility to explain those restrictions.
7. Before appointing someone as your health care agent, discuss it with him or her to make sure that he or she is willing to act as your agent. Tell the person you choose that he or she will be your health care agent. Discuss your health care wishes and this form with your agent. Be sure to give him or her a signed copy. Your agent cannot be sued for health care decisions made in good faith.
8. If you have named your spouse as your health care agent and you later become divorced or legally separated, your former spouse can no longer be your agent by law, unless you state otherwise. If you would like your former spouse to remain your agent, you may note this on your current form and date it or complete a new form naming your former spouse.
9. Even though you have signed this form, you have the right to make health care decisions for yourself as long as you are able to do so, and treatment cannot be given to you or stopped if you object, nor will your agent have any power to object.
10. You may cancel the authority given to your agent by telling him or her or your health care provider orally or in writing.
11. Appointing a health care agent is voluntary. No one can require you to appoint one.
12. You may express your wishes or instructions regarding organ, eye and/or tissue donation on this form.

# Frequently Asked Questions

## **Why should I choose a health care agent?**

If you become unable, even temporarily, to make health care decisions, someone else must decide for you. Health care providers often look to family members for guidance. Family members may express what they think your wishes are related to a particular treatment. Appointing an agent lets you control your medical treatment by:

- allowing your agent to make health care decisions on your behalf as you would want them decided;
- choosing one person to make health care decisions because you think that person would make the best decisions;
- choosing one person to avoid conflict or confusion among family members and/or significant others.

You may also appoint an alternate agent to take over if your first choice cannot make decisions for you.

## **Who can be a health care agent?**

Anyone 18 years of age or older can be a health care agent. The person you are appointing as your agent or your alternate agent cannot sign as a witness on your Health Care Proxy form.

## **How do I appoint a health care agent?**

All competent adults, 18 years of age or older, can appoint a health care agent by signing a form called a Health Care Proxy. You don't need a lawyer or a notary, just two adult witnesses. Your agent cannot sign as a witness. You can use the form printed here, but you don't have to use this form.

## **When would my health care agent begin to make health care decisions for me?**

Your health care agent would begin to make health care decisions after your doctor decides that you are not able to make your own health care decisions. As long as you are able to make health care decisions for yourself, you will have the right to do so.

## **What decisions can my health care agent make?**

Unless you limit your health care agent's authority, your agent will be able to make any health care decision that you could have made if you were able to decide for yourself. Your agent can agree that you should receive treatment, choose among different treatments and decide that treatments should not be provided, in accordance with your wishes and interests. However, your agent can only make decisions about artificial nutrition and hydration (nourishment and water provided by feeding tube or intravenous line) if he or she knows your wishes from what you have said or what you have written. The Health Care Proxy form does not give your agent the power to make non-health care decisions for you, such as financial decisions.

## **Why do I need to appoint a health care agent if I'm young and healthy?**

Appointing a health care agent is a good idea even though you are not elderly or terminally ill. A health care agent can act on your behalf if you become even temporarily unable to make your own health care decisions (such as might occur if you are under general anesthesia or have become comatose because of an accident). When you again become able to make your own health care decisions, your health care agent will no longer be authorized to act.

## **How will my health care agent make decisions?**

Your agent must follow your wishes, as well as your moral and religious beliefs. You may write instructions on your Health Care Proxy form or simply discuss them with your agent.

## Frequently Asked Questions, *continued*

### **How will my health care agent know my wishes?**

Having an open and frank discussion about your wishes with your health care agent will put him or her in a better position to serve your interests. If your agent does not know your wishes or beliefs, your agent is legally required to act in your best interest. Because this is a major responsibility for the person you appoint as your health care agent, you should have a discussion with the person about what types of treatments you would or would not want under different types of circumstances, such as:

- whether you would want life support initiated/continued/removed if you are in a permanent coma;
- whether you would want treatments initiated/continued/removed if you have a terminal illness;
- whether you would want artificial nutrition and hydration initiated/withheld or continued or withdrawn and under what types of circumstances.

### **Can my health care agent overrule my wishes or prior treatment instructions?**

No. Your agent is obligated to make decisions based on your wishes. If you clearly expressed particular wishes, or gave particular treatment instructions, your agent has a duty to follow those wishes or instructions unless he or she has a good faith basis for believing that your wishes changed or do not apply to the circumstances.

### **Who will pay attention to my agent?**

All hospitals, nursing homes, doctors and other health care providers are legally required to provide your health care agent with the same information that would be provided to you and to honor the decisions by your agent as if they were made by you. If a hospital or nursing home objects to some treatment options (such as removing certain treatment) they must tell you or your agent BEFORE or upon admission, if reasonably possible.

### **What if my health care agent is not available when decisions must be made?**

You may appoint an alternate agent to decide for you if your health care agent is unavailable, unable or unwilling to act when decisions must be made. Otherwise, health care providers will make health care decisions for you that follow instructions you gave while you were still able to do so. Any instructions that you write on your Health Care Proxy form will guide health care providers under these circumstances.

### **What if I change my mind?**

It is easy to cancel your Health Care Proxy, to change the person you have chosen as your health care agent or to change any instructions or limitations you have included on the form. Simply fill out a new form. In addition, you may indicate that your Health Care Proxy expires on a specified date or if certain events occur. Otherwise, the Health Care Proxy will be valid indefinitely. If you choose your spouse as your health care agent or as your alternate, and you get divorced or legally separated, the appointment is automatically cancelled. However, if you would like your former spouse to remain your agent, you may note this on your current form and date it or complete a new form naming your former spouse.

### **Can my health care agent be legally liable for decisions made on my behalf?**

No. Your health care agent will not be liable for health care decisions made in good faith on your behalf. Also, he or she cannot be held liable for costs of your care, just because he or she is your agent.

## Frequently Asked Questions, *continued*

### **Is a Health Care Proxy the same as a living will?**

No. A living will is a document that provides specific instructions about health care decisions. You may put such instructions on your Health Care Proxy form. The Health Care Proxy allows you to choose someone you trust to make health care decisions on your behalf. Unlike a living will, a Health Care Proxy does not require that you decide in advance decisions that may arise. Instead, your health care agent can interpret your wishes as medical circumstances change and can make decisions you could not have known would have to be made.

### **Where should I keep my Health Care Proxy form after it is signed?**

Give a copy to your agent, your doctor, your attorney and any other family members or close friends you want. Keep a copy in your wallet or purse or with other important papers, but not in a location where no one can access it, like a safe deposit box. Bring a copy if you are admitted to the hospital, even for minor surgery, or if you undergo outpatient surgery.

### **May I use the Health Care Proxy form to express my wishes about organ, eye and/or tissue donation?**

Yes. Use the optional organ, eye and/or tissue donation section on the Health Care Proxy form and be sure to have the section witnessed by two people. You may specify that your organs, eyes and/or tissues be used for transplantation, research or educational purposes. Any limitation(s) associated with your wishes should be noted in this section of the proxy. **Failure to include your wishes and instructions on your Health Care Proxy form will not be taken to mean that you do not want to be an organ, eye and/or tissue donor.**

### **Can my health care agent make decisions for me about organ, eye and/or tissue donation?**

Yes. As of August 26, 2009, your health care agent is authorized to make decisions after your death, but only those regarding organ, eye and/or tissue donation. Your health care agent must make such decisions as noted on your Health Care Proxy form.

### **Who can consent to a donation if I choose not to state my wishes at this time?**

It is important to note your wishes about organ, eye and/or tissue donation to your health care agent, or "health care proxy," family members, and the person responsible for disposition of your remains. If you have not already made your wishes to become, or not to become, an organ and/or tissue donor known, New York Law provides a list of individuals who are authorized to consent to organ, eye and/or tissue donation on your behalf. They are listed as follows, in order of priority: your health care agent/proxy; your spouse, if you are not legally separated, or your domestic partner; a son or daughter 18 years of age or older; either of your parents; a brother or sister 18 years of age or older; an adult grandchild; a grandparent; a guardian appointed for you by a court prior to your death; or any other person authorized to dispose of your body.

# HEALTH CARE PROXY FORM INSTRUCTIONS

## Item (1)

Write the name, home address and telephone number of the person you are selecting as your agent.

## Item (2)

If you want to appoint an alternate agent, write the name, home address and telephone number of the person you are selecting as your alternate agent.

## Item (3)

Your Health Care Proxy will remain valid indefinitely unless you set an expiration date or condition for its expiration. This section is optional and should be filled in only if you want your Health Care Proxy to expire.

## Item (4)

If you have special instructions for your agent, write them here. Also, if you wish to limit your agent's authority in any way, you may say so here or discuss them with your health care agent. If you do not state any limitations, your agent will be allowed to make all health care decisions that you could have made, including the decision to consent to or refuse life-sustaining treatment.

If you want to give your agent broad authority, you may do so right on the form. Simply write: I have discussed my wishes with my health care agent and alternate and they know my wishes including those about artificial nutrition and hydration.

If you wish to make more specific instructions, you could say:

*If I become terminally ill, I do/don't want to receive the following types of treatments....*

*If I am in a coma or have little conscious understanding, with no hope of recovery, then I do/don't want the following types of treatments:....*

*If I have brain damage or a brain disease that makes me unable to recognize people or speak and there is no hope that my condition will improve, I do/don't want the following types of treatments:....*

*I have discussed with my agent my wishes about \_\_\_\_\_ and I want my agent to make all decisions about these measures.*

Examples of medical treatments about which you may wish to give your agent special instructions are listed below. This is not a complete list:

- artificial respiration
- artificial nutrition and hydration (nourishment and water provided by feeding tube)
- cardiopulmonary resuscitation (CPR)
- antipsychotic medication
- electric shock therapy
- antibiotics
- surgical procedures
- dialysis
- transplantation
- blood transfusions
- abortion
- sterilization

## Item (5)

You must date and sign this Health Care Proxy form. If you are unable to sign yourself, you may direct someone else to sign in your presence. Be sure to include your address.

## Item (6)

You may state wishes or instructions about organ, eye and /or tissue donation on this form. New York law does provide for certain individuals in order of priority to consent to an organ, eye and/or tissue donation on your behalf: your designated health care agent/proxy; your designated agent to control the disposition of your remains; your spouse, if you are not legally separated, or your domestic partner; a son or daughter 18 years of age or older; either of your parents; a brother or sister 18 years of age or older; an adult grandchild; a grandparent; a guardian appointed by a court prior to your death; or any other person authorized to dispose of your body.

## Item (7)

Two witnesses 18 years of age or older must sign this Health Care Proxy form. The person who is appointed your agent or alternate agent cannot sign as a witness.

CITY/STATE/ZIP

DATE OF BIRTH (MM/DD/YYYY)

Male  Female

eMOLST NUMBER (THIS IS NOT AN eMOLST FORM)

**Do-Not-Resuscitate (DNR) and Other Life-Sustaining Treatment (LST)**

This is a medical order form that tells others the patient's wishes for life-sustaining treatment. A health care professional must complete or change the MOLST form based on the patient's current medical condition, values, wishes, and MOLST Instructions. If the patient is unable to make medical decisions, the orders should reflect patient wishes, as best understood by the health care agent or surrogate. A physician/nurse practitioner/physician assistant must sign the MOLST form. All health care professionals must follow these medical orders as the patient moves from one location to another, unless a physician/nurse practitioner/physician assistant examines the patient, reviews the orders, and changes them.

**MOLST is generally for patients with serious health conditions. The patient or other decision-maker should work with the physician/nurse practitioner/physician assistant and consider asking the physician/nurse practitioner/physician assistant to fill out a MOLST form if the patient:**

- Wants to avoid or receive any or all life-sustaining treatment.
- Resides in a long-term care facility or requires long-term care services.
- Might die within the next year.

**If the patient has an intellectual or developmental disability (I/DD) and lacks the capacity to decide, the physician (not a nurse practitioner or physician assistant) must follow special procedures and attach the completed Office for People with Developmental Disabilities (OPWDD) legal requirements checklist before signing the MOLST. See page 4.**

**SECTION A Resuscitation Instructions When the Patient Has No Pulse and/or Is Not Breathing**

Check **one**:

**CPR Order: Attempt Cardio-Pulmonary Resuscitation**

CPR involves artificial breathing and forceful pressure on the chest to try to restart the heart. It usually involves electric shock (defibrillation) and a plastic tube down the throat into the windpipe to assist breathing (intubation). It means that all medical treatments will be done to prolong life when the heart stops or breathing stops, including being placed on a breathing machine and being transferred to the hospital.

**DNR Order: Do Not Attempt Resuscitation (Allow Natural Death)**

This means do not begin CPR, as defined above, to make the heart or breathing start again if either stops.

**SECTION B Consent for Resuscitation Instructions (Section A)**

The patient can make a decision about resuscitation if he or she has the ability to decide about resuscitation. If the patient does NOT have the ability to decide about resuscitation and has a health care proxy, the health care agent makes this decision. If there is no health care proxy, another person will decide, chosen from a list based on NYS law. Individuals with I/DD who do not have capacity and do not have a health care proxy must follow SCPA 1750-b.

**Orders For Other Life-Sustaining Treatment and Future Hospitalization  
When the Patient has a Pulse and the Patient is Breathing**

Life-sustaining treatment may be ordered for a trial period to determine if there is benefit to the patient. **If a life-sustaining treatment is started, but turns out not to be helpful, the treatment can be stopped. Before stopping treatment, additional procedures may be needed as indicated on page 4.**

**Treatment Guidelines** No matter what else is chosen, the patient will be treated with dignity and respect, and health care providers will offer comfort measures. *Check one:*

- Comfort measures only** Comfort measures are medical care and treatment provided with the primary goal of relieving pain and other symptoms and reducing suffering. Reasonable measures will be made to offer food and fluids by mouth. Medication, turning in bed, wound care and other measures will be used to relieve pain and suffering. Oxygen, suctioning and manual treatment of airway obstruction will be used as needed for comfort.
- Limited medical interventions** The patient will receive medication by mouth or through a vein, heart monitoring and all other necessary treatment, based on MOLST orders.
- No limitations on medical interventions** The patient will receive all needed treatments.

**Instructions for Intubation and Mechanical Ventilation** *Check one:*

- Do not intubate (DNI)** Do not place a tube down the patient’s throat or connect to a breathing machine that pumps air into and out of lungs. Treatments are available for symptoms of shortness of breath, such as oxygen and morphine. (This box should not be checked if full CPR is checked in Section A.)
- A trial period** *Check one or both:*
  - Intubation and mechanical ventilation**
  - Noninvasive ventilation (e.g. BIPAP), if the health care professional agrees that it is appropriate**
- Intubation and long-term mechanical ventilation, if needed** Place a tube down the patient’s throat and connect to a breathing machine as long as it is medically needed.

**Future Hospitalization/Transfer** *Check one:*

- Do not send to the hospital unless pain or severe symptoms cannot be otherwise controlled.**
- Send to the hospital, if necessary, based on MOLST orders.**

**Artificially Administered Fluids and Nutrition** When a patient can no longer eat or drink, liquid food or fluids can be given by a tube inserted in the stomach or fluids can be given by a small plastic tube (catheter) inserted directly into the vein. If a patient chooses not to have either a feeding tube or IV fluids, food and fluids are offered as tolerated using careful hand feeding. **Additional procedures may be needed as indicated on page 4.**

*Check one each for feeding tube and IV fluids:*

- No feeding tube**
- A trial period of feeding tube**
- Long-term feeding tube, if needed**
- No IV fluids**
- A trial period of IV fluids**

**Antibiotics** *Check one:*

- Do not use antibiotics.** Use other comfort measures to relieve symptoms.
- Determine use or limitation of antibiotics when infection occurs.**
- Use antibiotics** to treat infections, if medically indicated.

**Other Instructions** about starting or stopping treatments discussed with the physician/nurse practitioner/physician assistant or about other treatments not listed above (dialysis, transfusions, etc.).

## Requirements for Completing the MOLST for Individuals with Intellectual or Developmental Disabilities

Completing the MOLST for individuals with I/DD who lack capacity to make their own health care decisions and do not have a health care proxy:

- The law governing the decision-making process differs for individuals with I/DD. Surrogate's Court Procedure Act (SCPA) Section 1750-b must be followed when making a decision for an individual with I/DD who lacks capacity and does not have a health care proxy.
- MOLST may only be signed by a **physician**, not a nurse practitioner or physician assistant.
- Completion of the **MOLST legal requirements checklist for individuals with I/DD**, including notification of certain parties and resolution of any objections, is **mandatory prior to completion of MOLST**. The checklist is available on the NYS OPWDD website.
- The checklist should be completed when an authorized surrogate makes a decision to **withhold or withdraw life sustaining treatment (LST)** from an individual with I/DD. There are specific medical criteria, included in Step 4 of the checklist. The individual's medical condition must meet the specified medical criteria **at the time the request to withhold or withdraw treatment is made**.
- **Trials** – whether or not a new checklist is required following an unsuccessful trial of LST depends on the parameters of the trial, as specified in Step 2 of the checklist. If Step 2 of the checklist has provided that a trial for LST is to end after a specific period of time or the occurrence of a specific event, it may not be necessary to complete a new checklist following the trial. However, if a trial period is open ended, and the authorized surrogate subsequently decides to request withdrawal of the LST, a new checklist would be required.
- The checklist and 1750-b process apply to individuals with I/DD, regardless of their age or residential setting.
